Glass Offers to Pay Fish Commissioner's Expenses to His Meetings.

His Meetings.

Tyou may say that I will pay the traveling expenses of Fish Commission of my speaking appointments to see him engage in his declared intention of driving me from the stump," said Representative Carter Glass at Murphy's Hotel last night "The State paid his expenses to Lancaster to hear me speak, and I will defray them to driving this so that he will be at no loss."

This challenge from Mr. Glass is the result of the statement made by Commissioner Lee regarding the result of the sort of joint debate in which the two men engaged at Lancaster Mr. Lee challenged certain statements made by Mr. Glass and attempted to show that the Lynchburg Congressman had voted for increases in salaries while in the State Senate. This was intended as a reply to Mr. Glass's charge of extravagance against the Swanson administration.

Mr. Lee has claimed that he got the best of the argument, and is under the impression that Mr. Glass would probably not mention his name again in his speeches. That he has made such mention was the assertion of Mr. Glass last night, and the latter followed this up with the invitation to pay for the pleasure of meeting Mr. Lee again.
